We're reading our way through the first four books, or sections, of our New Testament. We also call these 'books' the 'Gospels', which means 'good message'. The point of these four books of the New Testament is to record or chronicle/report on the life and ministry of Jesus Christ. I'm focusing our reading in these books because, of all the information we need to take in, and of all the emotions we need to feel, we need to know and feel deeply of the person we call Lord and Master! It feels utterly foolish and totally life-wasting to devote my time and energy on any endeavor or mission that I'm not sure has some lasting value in my life. I have no idea how many times I've read through these gospel records, but I do know that since I always find stuff I don't remember and have no idea was there for me to read, that I have not read this stuff nearly enough! I give to you, the good story of the life and ministry of my Lord Jesus Christ! We'll have gone through the first four records and finished the Gospel of John on the last day of April. Read with an open heart, and hear the voice of the Spirit as you listen to Jesus' teaching, and witness His miraculous touch, through the eyes and memory of these Gospel writers.

Shalom, D.P.
